

How to determine your ring size

IMPORTANT: Before printing, uncheck all 'fit to print' and other scaling options.
Before starting, measure the bar below and ensure it is exactly two inches.

Method #1:

Find a ring that fits the intended finger.
Place the ring over the circles, matching the inside edge of the ring to the circle nearest in size.

Method #2:

Cut out the ring sizer below. Make a small slit where marked. Wrap the sizer snugly around the intended finger by slipping the pointed end through the slit.
